Million Dollar Facials

Personalised treatments for refreshed, radiant-looking skin.

Million Dollar Superfacial — £65

60 minutes

A personalised, hands-on facial combining targeted skincare, relaxing facial massage, gua sha, cooling Ice Globes and an LED mask. Choose vitamin C for dull, tired skin or hyaluronic acid for dehydration, leaving skin soft, refreshed and radiant.

Million Dollar Facial — £95

60 minutes

An advanced facial combining skin analysis, cleansing, dermaplaning, cooling Ice Globe massage, microneedling, a hydrating mask and LED light therapy. Dermaplaning removes surface dead skin and fine facial hair, while microneedling targets skin texture.
Benefits: helps improve the appearance of fine lines, uneven texture and acne scarring, with enhanced hydration, smoothness and radiance.

Million Dollar Bio Cell Trinity+ — £95

An advanced bio-microneedling facial combining DermaChannel spicules, plant-derived exosomes, vegan PDRN and a personalised targeted ampoule. Microscopic spicules support the treatment without a conventional microneedling pen.

Following cleansing and preparation, the specialist core complex and chosen ampoule are applied, followed by a mask and finishing skincare.
Balance supports skin comfort; **Illuminate** targets dullness and uneven-looking tone; **Restore** focuses on hydration and smoother-looking texture.

Benefits: supports visible skin renewal, hydration and radiance for a softer, smoother-looking complexion. Your pathway, aftercare and any recommended course are tailored at consultation.
